MRes in Economics, Erasmus Mundus Joint Master Degree

Warsaw School of Economics Oct 2019 – Jul 2022
B.A. in Economics, Quantitative Methods in Economics and Information Systems

Working Papers

GenAI and the Internet 2026
[Paper] [Slides]
An equilibrium model of users choosing between AI and the web and of content creators' entry decisions. GenAI's effect on content supply and consumed quality is non-monotonic in AI capability.

Social Media and Labor Market Outcomes: The Effect of Facebook on College Graduates' Earnings 2025
with Luca Marcianò [Paper] [Slides]
Uses Facebook's staggered rollout across U.S. colleges to show that exposure during college lowered graduates' early-career earnings.

Impact of Censorship in Social Media 2024
[Paper] [Slides]
A Friedkin–Johnsen opinion-dynamics model of threshold censorship: stronger censorship raises polarization, lowers internal conflict, and its optimal level depends on homophily.

Research & Editorial Experience

The Econometric Society Mar 2026 – Present
Replicator

- Independently verify the reproducibility of submitted research by testing authors' data, code, and documentation.

Review of Economic Studies Sep 2025 – Present
